Prezi

common problems!?

YOUNG PEOPLE

with less opportunities or
facing educational, social
or economical obstacles

- > High level of youth unemployment
- > Lack of key competences & skills
- > Gap: school education-labour market
- > Low initiative & participation
- > Lack of enriching free-time practices
- > Few non-formal learning opportunities
(inside and/or outside school)

FAMILIES & COMMUNITY

Families and Institutions
working in youth
education fields

- > Unavailability of educational practices that supplement school learning's by reinforcing critical and up-to-date skills & competences (digital, soft, entrepreneurial)
- > Long summer vacations period and lack of free-time enriching practices for youth

objectives

text

a

[...] Fully implement a targeted summer free-time programme aiming the acquisition of transversal skills (digital, soft, employability, entrepreneurship), which are not promoted fully in schools thus bridging the skills gap between education and the labour market [...]

**#5 specific
goals**

The acquisition of transversal skills
(digital, soft, employability,
entrepreneurship) that are not
promoted fully in schools, thus
bridging the skills gap between
education and labour market

Tackling the insufficient school performance in relation to public spending through the provision of sustainable and an efficient summer school programme

3

The provision of high quality alternative learning activities for young people with fewer opportunities, who might have been affected by economical crisis or social exclusion

The provision of quality and targeted summer time activities focusing on the acquisition of digital skills regarded essential to meet the needs for the e-Skills for jobs initiative of the EU

5

The empowerment of young people to deal with issues such as early school leaving, school failure, career orientation and active citizenship
